Resene Wellywood

Resene Java

Resene Wet N Wild

Resene Torea Bay

Resene Studio

**TOP 12 TEST POTS**

These are my favourite Resene colours for painting rocks. I find these mix well to create other shades, and contain a good amount of pigment so they are nice and thick to apply. They look their best when painted on a primed rock.

*TIP: The paint is suitable for exterior use, however painted rocks wont like sitting in a pool of water, and the paint will peel off. So keep off the grass and away from puddles. NOTE: These are water clean up paints, but the paint will not come out of clothes.*

**Happy Painting!**
